Strike Threatened of 142,000 Miners

(Associated Press Special.) Indianapolis, Sept. 6.—The strike of the commercial world are turned toward Indianapolis today. The threatened general strike involving 142,000 anthracite coal miners in Pennsylvania is of international importance. If the strike is ordered by the National Board of Mine Workers, approximately 1,000,000 persons will be affected.

The National Board members began arriving last night for the conference today. The Board meeting for today was called for 10 o'clock, but was delayed until noon on account of the absence of Fred Dilcher, who has been at work in the anthracite fields and is familiar with the situation.

To the operators, time has been granted until Saturday to meet the demands of the miners. The Board members and others here today all say they hope a clash will be averted and are waiting to see what will be the answer of the operators.

Supplies promptly unloaded, forwarded when dispositions determined. All supplies received. Troops comfortable winter. No communication with Chinese officials after August 25th. James H. Wilson, Brigadier General of Volunteers goes to Peking tonight. "Rockhill, Shanghai. Telegraphic communication Peking Tien Tsin bad. Extreme heat ended. All conditions satisfactory. Go Nagasaki tomorrow, take first transport Manila."

"BARRY." General Barry goes to Manila to assume the duties of Chief of Staff to General MacArthur.

TREASURE FROM KLONDIKE

Seattle, Wash., Sept. 5.—The steamship Humboldt, Captain Bonfield, arrived in port today from Skagway with 142 passengers and about \$60,000 in Dawson gold. The largest treasure holder being T. P. Brenning, who had \$20,000. He was formerly chief of police of San Diego, Cal.

The Humboldt brings Skagway advices to September 1st. Nothing was seen of the wrecked Cutch coming down, as the Humboldt passed Horse Shoe Reef during the night. It is believed, however, that the larger portion of her cargo will be a complete loss.

Negotiations are now pending for the charter of from two to four large freight carriers to go on the run from this city to San Francisco, or from this city to Skagway.

OSCAR SEWALL MARRIED.

San Rafael, Sept. 5.—Miss Josefa N Crosby and Oscar T. Sewall were married this afternoon at the home of the bride's parents in this city. Rev. Arthur Crosby, father of the bride, officiated at the wedding ceremony. Only the relatives and intimate friends of the young couple were in attendance, but presents and messages of good will were received from all parts of the country. The house was beautifully decorated with ferns and forest greens. From a decorated alcove an orchestra discoursed music during the ceremony. Miss Crosby was attended by Miss Louise Crosby, her younger sister, who acted as maid of honor. The bride was gown in white organdie over white tulle. Warren D. Clark acted as best man.

The groom is well known in business circles throughout the United States. At present he is New York manager for the firm of Williams, Diamond & Co. of San Francisco and New York. Miss Crosby is pretty and popular. She is the daughter of Rev. Arthur Crosby, dean of the Mount Tamalpais Military Academy. Just previous to her marriage Mr. Sewall received the sad information that his uncle, Arthur Sewall of Maine had died. The young couple will spend their honeymoon in New York.

Torpedo Boat Injured.

New York, Sept. 6.—The torpedo boat Dahlgren while backing out of her slip yesterday, collided with the torpedo boat Gwyn, according to a dispatch to the Times from Newport, R. I. The Gwyn was so much damaged that it will be necessary to send her to the Brooklyn Navy Yard for repairs, which may cost several thousand dollars. It is said the Dahlgren's reversing gear failed to work when it should have done so.

NEW MEXICAN VOLCANO

Chicago, Sept. 6.—A special to the Record from Guadalajara, Mexico, says A new volcano has broken forth about thirty miles southeast of the old Colima volcano. The new volcano made its appearance suddenly and without warning. The natives living near the base of the mountain, as it is called, were much alarmed at first and fled from their homes, but as prospects of danger passed they returned to their homes. The volcano is small and local scientists predict that it will soon disappear.
